The Southern Philippines Medical Center (SPMC) is one of the 16 hospitals retained by the Department of Health in Mindanao.<sup>1</sup> It has a diverse clientele, mostly coming from the Davao Region (Region XI), SOCCSKSARGEN (Region XII) and Caraga Region (Region XIII).

The SPMC Outpatient Department (OPD) consists of the following specialty clinics and services: Dental Medicine, Dermatology, Otolaryngology - Head and Neck Surgery, Family and Community Medicine, Internal Medicine, Obstetrics & Gynecology, Ophthalmology, Orthopedics, Pediatrics, Physical Therapy and Rehabilitation Medicine, General Surgery, Urology, SPMC Cancer Institute, and SPMC Heart Institute.<sup>2</sup>

This infographic shows the number of outpatient consultations in SPMC from January to December 2017, which totalled 449,355. The three outpatient departments with the highest numbers of outpatient consultations were: Family Medicine (64,388 consultations), Obstetrics & Gynecology (58,757 consultations), and Internal Medicine (53,270 consultations).

SPMC will expand its OPD services in the future with the construction of the respective institutes or centers for Women and Newborn Health, Cancer, Kidney and Transplant, Orthopedics, Ophthalmology, Dermatology, Pediatrics, and Acute Care and Trauma. Each of these centers is projected to also run its own specialized outpatient services.

## Acknowledgments

We would like to thank Ms Rhialyn Dumaquita and Ms Lani Paler of the Hospital Information Management Division of the Southern Philippines Medical Center (SPMC) for producing the data used in this article, and Ms Lotes Jason and Ms Arbee Faith Sagpang of the Public Health Unit of SPMC for the additional information they provided on the topic.
