

Erratum

Tee ES, Florentino RF, Chongviriyaphan N, Hardinsyah R, Appukutty M & Mai TT (2023). Review of recommended energy and nutrient intake values in Southeast Asian countries. *Mal J Nutr* 29(2):163–241. doi: 10.31246/mjn-2023-29-2-rni-rda-sea-review

On page 174, Table 4 inadvertently omitted the main references for the energy values for Malaysia. These references were cited on page 173 in the main text of the review paper but were inadvertently omitted from Table 4. The corrected entry for Malaysia in Table 4 is provided below.

Original

Table 4. Main references used for setting recommended intakes of by nutrients and country

Nutrients	Main references used for recommendations
Energy	Indonesia: Based on estimated BMR by oxford equation, median healthy body weight of Indonesian based on age and sex groups, physical activity level. Recommendations for pregnant and lactating women are based on IOM (2005a).
	Malaysia: FAO/WHO/UNO (2004); physical activity level values from EFSA (2013a)
	Philippines: IOM (2005a)
	Vietnam: WHO (1985), FAO/WHO/UNU (2004), FAO/WHO/UNU (2007), ILSI SEA-RDAs (Tee & Florentino, 2005), WHO (2006) standard population for children under 5 years old, WHO (2007) reference population for children 5-19 years old.

Corrected

Table 4. Main references used for setting recommended intakes of by nutrients and country

Nutrients	Main references used for recommendations
Energy	Indonesia: Based on estimated BMR by oxford equation, median healthy body weight of Indonesian based on age and sex groups, physical activity level. Recommendations for pregnant and lactating women are based on IOM (2005a).
	^a Malaysia: Measured BMR using predictive equations for Malaysian were used (Ismail <i>et al.</i> , 1998; Poh <i>et al.</i> , 1999; Poh <i>et al.</i> , 2004), physical activity level values from EFSA (2013a)
	Philippines: IOM (2005a)
	Vietnam: WHO (1985), FAO/WHO/UNU (2004), FAO/WHO/UNU (2007), ILSI SEA-RDAs (Tee & Florentino, 2005), WHO (2006) standard population for children under 5 years old, WHO (2007) reference population for children 5-19 years old.

^aThis sentence was corrected on 27 August 2026 to include an omission in the original version. The online version of this article has been corrected to include the omitted references for the Malaysia entry in Table 4.
